

## MEMORANDUM

DATE:	March 13, 2017
TO:	EDA President Krant, EDA Board Members, and Administrator Votca
FROM:	Cynthia Smith Strack, Community Development Director
RE:	Item 5.6 Project Updates

### GENERAL INFORMATION

For EDA Board Member information please note:

1. Attached is a site plan for Tatiana Fields, the proposed cricket field athletic complex at 1001 Commerce Drive West. The project consists of two regulation size and one youth size cricket fields and ancillary parking facilities, batting cages, and grass berms for viewing. Future uses include: a clubhouse, field lighting, scoreboards, and perhaps a dome over the youth field. Programming for the fields will feature tournaments with regional and out-of-state teams, coordinated programming with BP Schools, and field/batting cage rental.
2. BP Schools are leading the effort to organize a committee comprised of representatives from the school, city, and public to discuss a community center. Anyone interested in participating is invited to submit an application to be on the committee. We are pleased to work in cooperation with the school to further explore this issue.
