All persons with facilities in the public right-of-way shall include the City in its list of those to be notified immediately of any event regarding its utility services that may be considered as an emergency. The registrant may proceed to take whatever actions are necessary to respond to the emergency. 605.09 REVOCATION OF PERMITS.

- e. The failure to correct, in a timely manner, work that does not conform with the conditions imposed by this Section.

If the City determines that the permittee has committed a substantial breach of a term or condition of the permit, the City shall make a written demand upon permittee to remedy such violation. The demand shall state that continued violations may be cause for revocation of the permit. A substantial breach, as stated above, will allow the City to place additional or revised conditions on the permit to mitigate and remedy the breach.

Within a timeframe established by the Director, following the permittee's receipt of notification of the breach, the permittee shall provide the City with a plan to cure the breach, acceptable to the City. Permittee's failure to submit a timely and acceptable plan, or a permittee's failure to timely implement the approved plan, shall be cause for immediate revocation of the permit.

If a permit is revoked, the permittee shall also reimburse the City for the City's reasonable costs, including restoration costs and the costs of collection and reasonable attorney fees incurred in connection with such revocation.

605.10 INDEMNIFICATION AND LIABILITY.

Upon the issuance of a public right-of-way permit, the City does not assume the liability; (1) for persons, damage to property or loss of service claims by parties other than the registrant or the City, or (2) for claims or penalties of any sort resulting from the installation, presence, maintenance or operation of equipment or utility services by the registrants or permittees or activities of registrants or permittees.

A registrant or permittee shall indemnify, keep and hold the City, its officials, employees and agents, free and harmless from any and all costs, liabilities, and claims for damages of any kind arising out of the construction, presence, installation, maintenance, repair or operation of its equipment and facilities, or out of any activity undertaken in or near a public right-of-way, whether or not any act or omission complaint is authorized, allowed or prohibited by a public right-of-way permit.

605.11 APPEAL.

A public right-of-way user who; (1) has been denied registration; (2) has been denied a permit; (3) has had a permit revoked; or (4) believes that the fees imposed are invalid, may have the denial, revocation or fee imposition reviewed by the City Council upon written request. The City Council shall act on a written request at its next regularly scheduled meeting. The decision by the City Council shall be in writing and supported by written findings establishing the reasonableness of the decision.
