City of Belle Plaine
Comprehensive Plan
Adopted by the City Council
TBD, 2018

We are Destination Belle Plaine 2040 and this is our vision:

A perpetually sustainable, complete, and livable City for all people, seasons, and generations.

We are Belle Plaine: a cohesive, broad-minded community situated on a beautiful prairie amid tree-lined ravines and the bluffs of the Minnesota River. Our setting provides a sense of sublime remove from the hectic world; yet we are connected by two highways, close proximity to an international airport, and miles of trails. We cherish the preserved history of our community, our quality schools, our distinctive neighborhoods and downtown, and our parks and natural areas. We are sustained by a diverse economy and our location within in the Twin Cities Metropolitan Area. We have the benefits of a small town: a community of neighbors and volunteers investing in, saving, and valuing the Belle Plaine of today and tomorrow. This is our Belle Plaine! Our touchstone is being true to ourselves, those to come, and those who have made us who we are.
